

Beach Discovery Inset Training day

**A lively and informative day on the beach to
gain knowledge of this fascinating habitat**

Course Tutors: Forest School Swansea Neath Port Talbot

Venue: Bishop's Wood Countryside Centre

Date: Friday 23rd March 2012

Friday 6th July 2012

Time: 9.30 am – 3.00 pm

Aims:

To give teachers the confidence and knowledge of the marine ecosystem

To increase teachers' skills in identifying seashore plants and animals

To inspire teachers to use the beach as a learning resource

Learning objectives:

To identify the common species found on the rocky shores.

To gain knowledge of the seashore ecosystem.

To learn new activities that can be used on the beach.

Desired outcome:

Teachers will become more confident using the beach habitat for learning and will be able to facilitate creative, curriculum-based activities with their students both on the beach and back in the classroom.

Our Staff

Our training staff has over 20 years of environmental education experience, ESDGC, Earth Education training, and Forest School provision. We have extensive experience in enhancing holistic learning for all ages and abilities. Karen Jones is trained botany and Zoology (BSc) and has 20 years experience taking children out to explore the seashore.

Cost:

£80
